

Dog house rules

Dear guests!
Dear friends!

We are happy that you want to spend for a wonderful days at Haus Wegscheider with your four-legged friend.

Hygiene and **care** are very important for us, so here are a few tips:

We ask you to **be considerate** of guests who are not familiar with dogs.
Dogs should not mark their territory or cause a disturbance by barking in the house or garden.

In rooms and apartments:

Please only use your **own dog blanket** that you have brought with you. The same applies to towels.

Beds and sofas are strictly off-limits for dogs, and dogs should not be left alone in the room.

Walking your dog:

Please walk with your dog so he can urinate just outside our property! There are bags available (free of charge) everywhere for your pet's waste!

There is also a **dog park** at the Salzach river (near the Hummersdorfer Bridge). Here you can let your pet run free. Otherwise, dogs must be kept on a **leash** throughout the entire municipality, and a **muzzle** is also required in **gondolas** and on **public transportation**.

You are welcome to bring your dog into our garden. However, dog urine is so strong that it damages the lawn, so please make sure your dog does not urinate.

When you return from your walk, please dry and clean your dog with **your own towel** before entering the house, room, or apartment.

Liability – insurance:

As a dog owner, you are liable **for any damage** caused by your dog. You should have liability insurance.

Costs:

A small fee will be charged for your dog. This costs are for the special final cleaning – food is not included.

Thank you for your understanding. We wish you a wonderful vacation!
